23/7/26 Ex 3b-2 Switch

Aim :- To Study the behaviour of a Switch by observing how it forwards data packets using Cisco Packet Tracer.

Steps :-

Step 1 :- Open Cisco Packet Tracer.

Step 2 :- Drag and Place Switch using Copper Straight-Through cables.

Step 3 :- Configure Ip address for all pcs in same Network.

Step 4 :- Select add Simple PDU from the Common Tools bar.

Step 5 :- Send a Packet from one Pc (source) to another Pc (destination)

Step 6 :- Switch to Simulation Mode and observe how the Switch forwards the packets

Result :-

The Switch forwards the Packet only to the destination Pc by using its MAC address table. This reduces unnecessary network traffic and improves communication efficiency.
