29/9/26 Ex No:3 Hub and Switch Comparison

Aim:-
To compare the Packet forwarding behaviour of a Hub and a Switch using Cisco Packet Tracer.

Steps:-

Step 1:- Create one network using a Hub and another using a Switch, each connected to 4 PCs.

Step 2:- Configure IP addresses for all PCs in both network.

Step 3:- Observe Packet transmission in Simulation Mode.

Step 4:- Compare how the Hub and Switch forward Packets.

Result:- The Hub broadcasts Packets to all connected devices, whereas the Switch forwards Packets only to the intended destination. Therefore, the Switch provides better Performance, reduced network traffic, and improve efficiency compare to the Hub.
